

Reservelt! provides complete control over the look of each room display. Start with a custom background including your company's logo. Select font, style, size and text color for the room name, meeting times and subject lines.

Promote an event by adding an image to any item in the calendar.

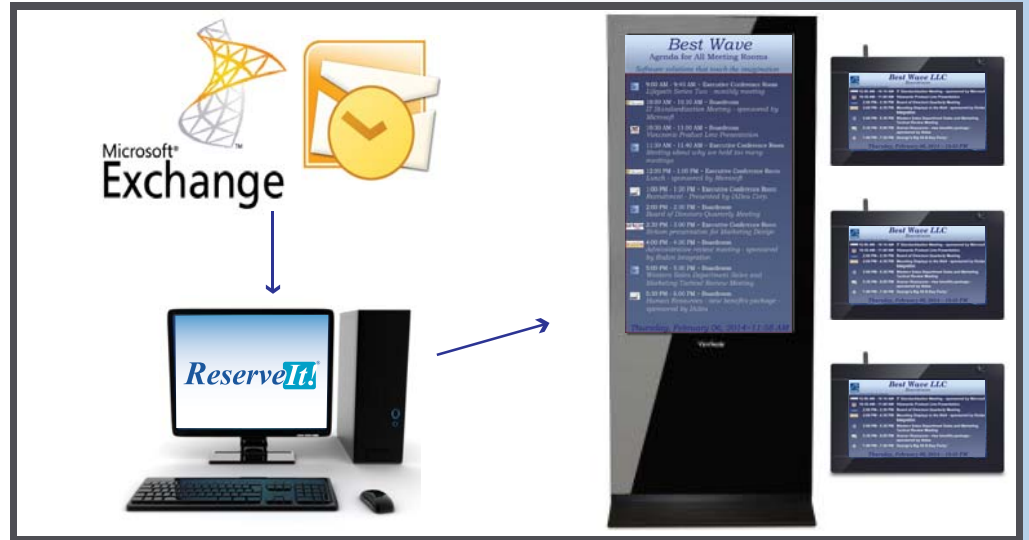

Surface and in-wall mounting options are available for an architecturally integrated look.

Agenda Displays from Any Calendar

Display conference room and meeting agendas automatically from any calendar. Reservelt! integrates seamlessly with Microsoft Exchange Server and other calendars, and also works with Excel data output from proprietary scheduling systems. Any media player or PC with our Reservelt! player software or a web browser can deliver eye-catching, customized agenda displays outside each meeting room. Use the All Rooms Agenda in lobbies and entryways to display a complete schedule for the entire facility.

- Integrates with existing business processes and technology
- No training required - simply schedule meetings as usual
- Designed for use with Outlook Exchange, or use any calendar or production system that outputs to Excel format
- Compatible with a range of hardware including Android players
- Update anytime, anywhere; from your smartphone, or any device with access to your calendar
- More affordable than similar solutions - up to 10x less expensive
- Easy to deploy with Power-Over-Ethernet players and tablets
- All Rooms Agenda for a sitewide schedule - perfect for lobbies

Make meetings easier for everyone, and put an end to conference room conflicts forever. Download a free 30-day trial today.

DisplayIt! Software
DisplayIt!

Part No.	Price
DI-041	\$1200 <u>each</u>

DisplayIt! is no longer available for new customers. Please use DisplayIt!Xpress instead.

One *DisplayIt! Xpress* license is required for each media player. A 3-player configuration is shown here. More than one screen may be connected to a single Media Player – only 1 software license is required in that case. Each player has its own content schedule. Multiple displays connected to a single player display the same content.
